Hello, Factor This! listeners. This is John Engel, editor-in-chief of Renewable Energy World and POWERGRID International. As many of you know, I live in Asheville, which was devastated by Tropical Storm Helene. This conversation between myself and Renewable Energy World content director Paul Gerke was hastily recorded on Wednesday, Oct. 2, so please ...

What FERC did . Through two separate orders, 1920 and 1977, FERC, which regulates transmission and wholesale energy markets, set a course for proactive, long-term planning and cost-sharing, and provided a new backstop for some permitting squabbles. Under Order 1920, transmission providers must plan ahead at least
