This XS Power XV3400 Lithium Titanate Oxide (LTO) series uses a very high power lithium battery that is designed for stock charging systems. This translates to a single 6Ah module that can support burst current up to 200A, and can accept a max of 150A of continuous charge current.

XS Power Lithium XV-Series Batteries provide powerful cranking amps and up to 5X the lifespan of a lead-acid and AGM battery. The XV-Series weighs less than 8 lbs., delivers cold-weather reliability, and can be used with both stock or performance-style alternators. They are available for automotive and Powersports applications and come in many ...
