A 12-volt lithium lawn mower battery discharges only 2% per month, compared to 30% for a similar lead acid battery. This means your battery will be ready to work when you are! Our lithium batteries are Bluetooth capable, allowing you to check the charge level at any time right from your phone, eliminating the guesswork while you cut the grass.

It's crucial to have a well-made lawn mower to help you ensure your yard looks top-notch. However, to get the most out of your lawn mower you need a long-lasting lawn mower battery. Lawn mower batteries typically range in price from \$30 to over \$200. The best one will coincide with the type of battery powered lawnmowers that you prefer or own.

Lithium lawn mower batteries from LithiumHub Ionic can sync together in parallel to suit any machine. You need a battery that will last as long as your mower--or longer! Our batteries can be synced together to provide the power you need. LiFePO4 batteries have a lifetime 4-6x as long as lead acid. Keep the chemicals off your yard, and enjoy 100% leak-free power.

Get the Worx battery-powered lawn mower at Amazon (with two batteries), Walmart, or Target (with four batteries). Best for Mulching Ego Power+ 22" Aluminum Deck Select Cut Lawn Mower

At an affordable price for its power, the Weize 12-volt battery is a great option for lawn mowers. The battery is built to extend not just the battery life per charge, but the long-term life of the total battery. The anti-overheat cover improves battery health as well as helps maintain charge.

A 12-volt lithium lawn mower battery offers 99% charge efficiency, compared to lead acid's 85%. It also packs all this efficient power into a package half the size of a traditional battery. Additionally, the decreased weight leads to decreased energy use and less gas usage.

2 Free Batteries with qualifying X2 kits for a limited time (4 batteries included) Self propelled with variable

Lithium lawn mower batteries

speed (1.5 MPH - 3 MPH) 4 Bay battery system for 2 times more run time ; Powered by (2) 18V LXT batteries with the option to insert (2) additional batteries for extended run time ; Mows up to 1/2 acre using (4) 18V LXT 5.0Ah batteries

LiFePO₄ lithium lawn mower batteries last approximately 4-6 times longer than lead-acid batteries. Lithium batteries have a higher power density level and a slower rate of capacity loss. Lithium batteries can last for 10+ years or 3,000 charging cycles at 80% DOD.
