

# Minnesota power solar rebates

Minnesota has not passed any laws regarding HOA oversight for solar panels. Before installing solar panels, it is important to research whether they are allowed in your neighborhood and if there are specific requirements you need to know about. Your insurance plan should also be taken into consideration.

The Minnesota Solar Incentive Program (SIP) offers performance-based incentives to homeowners who install solar photovoltaic (PV) systems. These incentives are paid based on the amount of electricity your solar system produces, providing additional financial benefits over the first ten years of system operation.

Minnesota residents are eligible for solar incentives like the federal solar tax credit, net metering, tax exemptions and utility company rebates. Keep reading to learn more about ...

Minnesota Power offers a solar rebate program. Applicants are selected randomly to receive funding at a rate of \$0.02 per kilowatt-hour (kWh) of energy generated for residential systems. Income-qualified residential systems also receive an upfront incentive of \$2 per watt.
