

Modern power systems magazine

We cover all the power plant types, including gas-fired generation turbines, coal, nuclear, renewables, diesel engines, distributed generation, cogeneration, biomass and power-from-waste.

Societal polarisation and the power industry: Navigating challenges and opportunities. Navigating the complex landscape requires a nuanced understanding of the diverse factors contributing to polarisation and a commitment to inclusive and equitable energy policies

Renowned for its informed and insightful commentary Modern Power Systems delivers up to date analysis and news as well as in-depth articles on trends, technology, and exciting projects, alongside opinion and thought leadership from industry experts.

Modern Power Systems Magazine (UK) Megger. Nuclear Engineering International (UK) Olympus(UK) Omicron (Austria) Pruftechnik (Poland) PSS Pty Ltd (M -Tech) (South Africa) Royal Danish Embassy (Danish Pavilion of Energy companies 96sqm) Sefako (Poland) Turbocare (Poland) US Metals (USA)

In order to gain an understanding of what its readers view as the most important issues for 2010, Modern Power Systems magazine is launching a major industry survey covering its entire readership worldwide.
