

Noco lithium battery for harley davidson

Ideal for Harley Davidson Road Glide Riders, the NOCO LiFePO4 12V Battery offers lightweight, reliable performance and quick starting power. With an 8Ah capacity and 700-amps starting power, this lithium-ion battery eliminates the need for sulfation, activation, acid, or water, providing 50,000 starts and 2,000 charge cycles.. The dynamic Battery Management ...

The NOCO LiFePO4 12V Battery for motorcycles offers Harley Davidson riders a lightweight and powerful alternative to traditional lead-acid batteries. With its 8Ah capacity and 700-amps starting power, this lithium ...

Introducing the all-new NOCO Lithium NLP30 12V Lithium (LiFePO4) Powersport Battery, a Group 30 battery, rated at 8Ah (99Wh) and 700-amps of starting power. ... A forum community dedicated to all Harley-Davidson model owners and enthusiasts. Come join the discussion about performance, modifications, troubleshooting, builds, maintenance ...

For Harley Davidson Heritage Classic owners seeking a lightweight, high-performance option, the NOCO Lithium NLP20 Motorcycle Battery delivers an impressive 600A starting power and a compact design. Weighing only 2.38 pounds, this 12V lithium battery boasts a 7Ah capacity and 89Wh energy, far surpassing traditional lead-acid batteries.

The Harley-Davidson Lithium LiFe Batteries offer more than 2-times longer battery life and more cranking amps than standard AGM batteries. Compared to AGM batteries, the Lithium LiFe batteries weigh an impressive 17.6 lbs. less on Touring models, 12.2 lbs. less on Softail, and V-Rod models and, 8.8 lbs. less on Sportster and Street models.

A Harley-Davidson® Lithium LiFe battery has a very slow self-discharge rate, losing only about 10 percent of its charge in a year. Compare that to a lead-acid battery, which can lose about 1 percent of its charge in a day. When disconnected from the motorcycle a Harley-Davidson Lithium LiFe battery will maintain its charge without maintenance ...

The chart above shows the difference between the cranking ability (CCA. Cold Cranking Amps) of a standard lead-acid Harley Davidson battery, a lithium Harley-Davidson battery and our lithium equivalent. As you can see, our lithium battery has over 20% mo. re cranking power than a standard lead-acid battery.

Introducing the all-new NOCO Lithium NLP9 12V Lithium Powersport Battery, a Group 9 battery, rated at 3Ah (38Wh) and 400-amps of starting power. It's better than lead-acid motorcycle batteries in almost every way: no sulfation, no activation, no acid, no maintenance, no water needed, and it comes fully charged and ready to install.

The NLP9 is a lithium powersport battery that delivers 400-amps of starting power for motorcycles, ATVs, UTVs, PWCs, and more. ... Introducing the all-new NOCO Lithium NLP9 12V Lithium Powersport Battery, a

Introducing the all-new NOCO Lithium NLP20 12V Lithium Powersports Battery, a Group 20 battery, rated at 7Ah (84Wh) and 600-amps of starting power. It's better than lead-acid motorcycle batteries in almost every way: no sulfation, no activation, no acid, no maintenance, no water needed, and it comes fully charged and ready to install.

The AGM bat on my 2002 1250 was starting to go out, been wanting to switch to a lithium ion battery. Found a company called NOCO that makes batteries with great looking specs. The company has been around for a while but only recently started making lithium ion moto batteries. It's slightly larger than Antigravity, but not by much.

You might want to talk to the Harley dealer if you don't trust an aftermarket Lithium battery and see if Harley has an official battery for your bike, but it will definitely cost a lot more from Harley than from an aftermarket. ... A forum community dedicated to all Harley-Davidson model owners and enthusiasts. Come join the discussion about ...
