Pivot energy community solar

Pivot Energy is proposing a 4.25 MW community distributed generation project, known as a community solar project, located on Sweet Road in Pompey, NY. Over the anticipated project lifetime, Pivot Solar NY 2 will generate approximately 7000 MWh per year of electrical energy, supplying the local power grid with clean, renewable energy.

Pivot Energy's community solar capacity in Illinois now stands at 51 megawatts, making the company one of the leading providers in the state. One of these projects includes a 2.8-megawatt system ...

Today, Pivot Energy is excited to announce the closing of a \$190 million financing facility to support a multi-state portfolio of distributed generation solar projects. Silicon Valley Bank (SVB) will lead the debt facilities and Foss & Company (Foss) will make the tax equity investment. The 90 megawatt (MW) portfolio comprises over 40 solar projects, approximately 80% ...

Today, community solar feels like the logical end for distributed clean energy - build large offsite solar arrays, let multiple households, companies, municipalities, and others subscribe to the capacity, and receive bill credits on the generation. However, only a short while ago, this concept was wildly new and innovative. It was only in 2010 that...

This framework, known as community solar, is currently the fastest growing segment of the solar industry. Twenty-one states and the District of Columbia now have active community solar programs. "SGC Power is a community solar leader with deep industry experience," said Tom Hunt, CEO of Pivot Energy.

A national leader in comprehensive commercial and community solar services. Businesses and organizations can cut operating costs, reduce reliance on fossil fuels, and support a cleaner, healthier environment with solar energy.

Since 2007, community solar (otherwise known as shared solar) has proven to be a game-changer in local energy production, and its popularity has risen accordingly. But it's not just a renewable energy solution; it's a catalyst for widespread economic growth and social benefits. Keep reading to better understand why American voters want their local representatives to ...

"Pivot is a true pioneer in one of the fastest growing segments of the renewables sector. Through its leadership position in community solar, the Company is rapidly expanding access to low-cost, renewable energy to historically underserved communities across the U.S.

Projects will provide enough clean energy to power 4,500 Illinois households. Springfield, IL (May 16, 2019) -- Today, Pivot Energy, a national solar developer, announced it has been awarded 11 community solar projects totaling approximately 29.36 MW(dc) of new solar capacity through the Illinois Adjustable Block Lottery Program. The projects will provide clean and affordable solar ...
