Portable Solar Panel. \$999.95 \$899.95 New Lower Price. The Nomad 400 gives you lots of power in a lightweight, portable design. You can take it on the road and use it to recharge your Yeti indefinitely or keep it at home so you can still collect power for emergency backup when the grid is down. Quantity-+.

During Winter, adjust your solar panels to a 53° angle towards the South for optimal energy production. Lastly, in Spring, position your panels at a 30° angle facing South to capture the most solar energy in Izmir, Turkey. Our recommendations take into account more than just latitude and Earth's position in its elliptical orbit around the Sun.
