Maintenance For The Power Ionizer

My wife and I just bought a new house and it has an above ground pool that is 2 years old. The previous owner said they used the Power Ionizer Hybrid System and they loved it. They told me they treated the pool with straight bleach. This sounds kind of strange to me. There are chemicals the manufacturer sell like "Awaken", "Cleanse ...

Turn your filter system on and connect power to you Power Ionizer System. System Features. There are two(2) indicator lights located on the side panel of the Power Ionizer "Active" - "System Activated on older models" - indicates the Power Ionizer is attached to a live power source, and the electrodes are receiving power.

A pool ionizer system, also called a mineral system, uses copper and silver ions in the product's mineral cell to rid your pool of certain pollutants like algae. Silver ions are more effective for swimming pool bacteria while copper ions keep algae under control.

Traditional salt systems can cause corrosion to the steel wall on top rails. More and more, pool manufacturers will not warranty a pool that uses a traditional salt system. The Power Ionizer System utilizes a minimal amount of salt in a unique way, simply to kick-start the process and then allows natural minerals to take over.

\$269.99 The Power Ionizer releases copper and silver ions into your swimming pool water killing bacteria, algae, and viruses. Provide your family with a clear, healthy, and sparkling swimming environment saving you time and money with The Power Ionizer!

Description The Main Access Power Ionizer reduces the use of chemicals like chlorine in your pool. It uses silver and copper ions found in the Power Ionizer Chamber and releases these ions into your pool to provide

Power ionizer hybrid pool system

advanced quality pool water. Shock and test your pool on a weekly basis. For Above-Ground Pools, In-Ground Pools, and Hot Tubs/Spas.
