All the games work fine, including the shooting games. (play much better with the Zapper) FABombjoy's report of a Power Joy with an incompatible cartridge makes me want to hunt down variants of these even more. Amusingly though, a Famicom copy of Hogan's Alley would not work properly in the Power Joy system, targeting was WAY off.

I currently own the Power Joy and Power Joy Voyager, but I hope in the future I will find more Power Joy systems and even more of the cartridges. I'll never forget the first time I passed up an absolutely complete Power Joy for \$10 at a thrift store, but through time and patience I've pieced one together, with a spare one for parts if needed.

One of two Nintendo 64-shaped bootleg plug & plays that flooded North American stores in the early 2000s (the other being the Power Player Super Joy III). It features 64 (ish) Famicom games, alongside some "Y2K"; ROM hacks featuring Pikachu, Doraemon, and Hello Kitty. Unused 32-in-1 menu
