Compared to other solar companies in the industry, Powur has a more expansive service area, servicing 22 states. A company's service area is not an indicator of quality of service, but it is worth noting that many solar companies have limited service areas, of even just one or two states. The fact that Powur has a wide service area means that ...

Powur Energy is a decent solar company that has some things going for it, like a great mission statement and decent warranty coverage. Unfortunately, there are some downsides to working with this company as well, like the possibility of subcontractors complicating your installation and lack of customer service after your panels are set up.

We are the fastest growing solar company in the USA Each year, we have thousands of entrepreneurs joining us. In 2021, Powur will generate hundreds of millions of dollars in revenue as we scale to a billion-dollar IPO by 2023.
