Pure Energy Solar does a full and comprehensive site assessment where we will perform a solar access and shade report. With this information, PES can design the best solar solution for your business or residence. See more FAQs

In August 2017, we contracted Pure Energy Solar to install a roof-mounted 6.05 KW PV system at our house in Gainesville. The Pure Energy Solar personnel were very professional and easy to deal with, from the start of the process to the end. They always met their promised schedule and, best of all, there were no surprises.

Going solar in 2024 in Texas is financially wise due to decreasing costs, ample sunlight, and available incentives. It aligns with sustainability goals, offers energy independence, and shields against rising utility rates, providing homeowners with savings, environmental benefits, and greater control over energy usage.
