But Solar Power finds Lorde swapping her trademark directness for tuneless detachment instead of finding fresh new sounds, producer Jack Antonoff has helped her filter trippy 1960s beach vibes through her love of early Noughties hits by S Club 7 and Robbie Williams. There's a nod to George Michael's "Faith" (1987) in the stubble-strum and booty ...

Lorde the musician, social critic, and diarist has never been sharper, thankfully. As Solar Power meditates on the tension between achievement and comfort, it grazes masterpiece status--the only thing holding it back may be Lorde's disinterest in chasing accolades.

Lorde's wonderful third album, Solar Power, is too complex to be basic. But it does shrug off the baggage that has been placed upon Lorde, upon stardom, and upon happiness itself in the influencer age. Gone are the creepy keyboards and the image of a teen girl with hunched posture in black cloaks.

On Solar Power, Lorde surrenders to normalcy--and finds transcendence. Ever since people started slinging around the word basic as an insult, delights as disparate as pumpkin-spice lattes, the music of Lizzo, and sunsets have gotten a bad rap. The diss refers to pleasure--simple pleasures, normal pleasures, things that everyone can enjoy.

" But when the heat comes/ Something takes a hold." Lorde revels in the environment throughout the album, whether she's suggesting jumping off Bulli Point on her home country's Lake Taupo on album closer "Oceanic Feeling" or looking to the skies for answers on "The Path".

Four years after her last D.C. performance, Lorde returned to The Anthem's stage on August 29 on tour for her album "Solar Power." The 25-year-old artist was originally scheduled to play at the venue in April, but rescheduled the stop after contracting laryngitis. In the waning days of summer, thousands of fans crowded into the...

Nothing moves up a quarter-life crisis quite like a global climate catastrophe and a pandemic, so Lorde "s is right on time. With Solar Power, she's right in the thick of it: wearied by teenage fame and capitalism, worried about the state of the earth and grieving the loss of her beloved dog Pearl.

Lorde's prioritization of private pleasure over the duties of pop stardom helps explain the parts of Solar Power that don't wow: a clutch of ballads written with such memoirist precision, and such disinterest in big catharsis, that they may exist more for her sake than the listener's. Yet even the duller fare makes a point.

Solar Power's a little messy and rough around the edges, and features a Lorde now moving on from her youth and wanting to keep some things to herself. In short: It's just like being 24. In ...

Someone should've told Lorde that an album about going outside isn't going to work when people are still out here dying. Or in a meme form, Lorde is sarcastically Kim Kardashian in the water crying about her lost earring while the public is Kourtney saying, "Lorde, there's people that ...

A lot has changed for Lorde in the four years since second effort "Melodrama", a record which distilled the anguish of adolescence into glistening oil-on-water electropop. That record revelled in the visceral chaos of coming of age, elevating the intensity of teenage feelings to more ethereal places, as the unlikely star took the hype of gold teeth and Grey Goose and crafted it into a ...

Ella Yelich O'Connor, more commonly known as Lorde, just released her third studio album, Solar Power, on August 20, 2021. Lorde performed some acoustic, yet psychedelic songs, such as "The Path" and "Mood Ring", from her latest album, Solar Power. She also dabbled into her previous and more upbeat records, Melodrama and Pure Heroine. One of the crowd favorites of the night was an energized performance of her popular and youthful song, "Ribcage".
