

Roypow lithium battery conversion

With RoyPow batteries, you are guaranteed to get the absolute best out of your golf cart. Lithium batteries also weigh considerably less than a system of lead-acid batteries, and only require the one lithium battery to power the cart as opposed to the 6 or 8 lead-acid batteries most often found in golf carts.

A RoyPow golf cart lithium battery can quick-charge to 80% in just 1 hour, and fully charge to 100% in just 5 hours. A standard lead-acid battery takes about 12 hours to fully charge, and will need to be charged every day after using. A lithium battery holds a charge much longer, about 8 months after being fully charged.
