Silicon valley power solar rebate

Clara Celebrate Public Power Week, Oct. 6-12 10/7/2024 7:00:00 AM

The Neighborhood Solar Program is a community supported and funded program administered by Silicon Valley Power. Initially launched in September 2002, the program allowed customers to make voluntary small donations, typically five or ten dollars a month on their utility bill, to pay for solar photovoltaic (PV) system installations on non-profit ...

Will carbon-free power impact the reliability of Silicon Valley Power's electricity? Carbon-free power resources will not impact the reliability of Silicon Valley Power's electricity. Silicon Valley Power's diverse set of power resources are connected to the dynamic electric grid, designed to handle variability in both supply and demand.

Silicon Valley Power has less than 60,000 service connections. Although we are not obligated to offer a net metering successor tariff once we exceed the five percent threshold, the utility has made a commitment to environmental responsibility and will continue to provide incentives to our solar customers.
