

## Solar companies in verde valley

We are dedicated to assessing, designing, installing and servicing solar power systems in homes, businesses, churches, schools and community buildings in the Verde Valley. Verde Solar Power engineers, installs and services Photovoltaic (PV) electric solar systems.

Cost of Solar Installation in Chino Valley. The cost of home solar panels in Chino Valley depends on several factors, including your system's expected capacity and the type of solar technology being used. Generally speaking, a typical solar energy system costs \$3,070 per kilowatt, not including preliminary work, permit fees, or labor.

This ingenuity made headlines among TV shows and programs for Via Verde across the country for months since its creation. The solar panels are capable of generating 500 watts of electrical power and this amount of free energy can substantially impact the monthly electrical bills of occupants.

In San Tan Valley, where the energy generation can be rather dirty, going solar can have a big effect on the environment since solar power is an abundant source of clean energy. In San Tan Valley, the average household can lower their carbon footprint by 100 pounds a year once they go solar.

Verde Solar Power was the first in Arizona to use the new SolarEdge inverter system with its next-generation smart module design. Because it is a distributed design with special converter modules attached to each PV panel, the system is 5% more efficient (up to 25% in shady applications) than old style inverters and has the safety feature of shutting down the high-voltage roof power ...
