Read our guide to the benefits of leasing land for solar. Why Should You Lease Your Land? Before we go in-depth with the development process involved in leasing your land for solar, we want to highlight the benefits of leasing your land. The main benefit is of course financial gain: you will receive long-term, stable income for decades to come.

How does a land lease work? We need land on which to build a solar farm. This means a solar developer and a landowner need to agree on the terms of a solar land lease. Through the lease, a landowner makes a suitable portion of their property available for the development, construction, and operation of a solar farm.
