Solar-Infra Systems International is a company based in Surrey, BC that specializes in renewable energy solutions. They focus on the development and implementation of solar infrastructure projects for both commercial and residential clients. Generated from their business information.

Some infrared systems employ radiant heating--that is, the heat projects from the unit and radiates out onto whatever happens to be nearby. And some have more complicated systems with internal fans that blow heat across a space. Whether you're ready to begin your project now or need some expert advice, our network of contractors are here to help.

Solar Infra Systems 24x36"" SunSeeker Portable Indoor Outdoor Solar Heater ... Don't need to purchase accessories, this is perfect solar water pump system, upgraded, simplifies the tedious steps for users. ?[Powerful 50Ah Lithium Battery]: ECO-WORTHY lithium iron phosphate battery (LiFePO4) can be
