4 days ago· Solar farms are renewable power stations with large arrays of photovoltaic (PV) solar panels. Compared to domestic solar arrays installed on a home rooftop, solar farm panels are usually ground-mounted. They feed electricity directly to the power grid. From there, consumers can access renewable energy to power their homes. Types of Solar Farms

German photographer has created an incredible series of aerial photos of solar farms in different countries. The results are mesmerizing. ... The Solar Power Series is oddly mesmerizing, as the panels are laid out in concentric circles or neat rows. The repetitive pattern on the landscape is soothing yet also an odd transformation at the same time.
