Excellent service and good follow up. Very happy with our new solar system. We went with a 10kw inverter and 25 panels. We have only had solar for 1 week but I can monitor that even at this time of year the panels are generating around 30kw of power each day which is above our current average daily consumption, however this will change when our pool comes online.

The Sunshine Coast can produce a lot of Solar Power According to the Bureau of Meteorology, the Sunshine Coast receives approximately 5.2 "peak sun hours" per square meter on average per day. That means to calculate how much energy your solar panels will produce, you need to multiply the kilowatt rating of the solar system by 5.2 and ...
