Solar panels were installed in 2013 by Solar Power Direct, and in 2021 there was a manufacturing fault on the panel which was still under warranty. The team at Solar Power Direct sent a technician to diagnose the problem and organise ...

The potential for solar energy to be harnessed as solar power is enormous, since about 200,000 times the world's total daily electric-generating capacity is received by Earth every day in the form of solar energy. Unfortunately, though solar energy itself is free, the high cost of its collection, conversion, and storage still limits its exploitation in many places.

Harness the power of solar energy with the Hyperion 400W Bifacial Solar Panel in sleek black from Direct Solar Power. Featuring cutting-edge bifacial technology, this solar panel captures sunlight from both sides, potentially boosting energy output up to an impressive 500W. Rely on its efficiency and durability to elev

Start getting more from your solar panels with these 3 easy steps: Connect your solar system: You'll need a qualifying solar energy system with a rated capacity of less than 50 kW, plus an existing interconnection agreement with your TDSP (utility provider). Configure your meter: Contact your TDSP to configure your meter and get connected to the grid.
