And that is still how I view the album, but there's more to it than that. She once described having a romantic view of New York City even after being stuck on a subway for four hours, and Solar Power reads to me like that same perspective applied to fame. Solar Power covers a handful of topics pertaining to Lorde and where she currently is in ...

The majority of that criticism comes from two particularly weak points - "Big Star" and "Dominoes" - but even then, both are quite enjoyable as background music or in context of the album. ... Solar Power is best when it's Lorde-forward, and this occasionally slips. Published _abee10 Sep 12 2023. She gets it! This is Lorde's third album, and I ...

Lorde's Solar Power received mixed reactions from fans and critics because of its complete change in musical direction, It's so funny how fans and Lorde's album gave us a folksy vibe with her 3rd studio album, having the harmonies and percussions, drums, and strings that rightfully represented the beaches and New Zealand summer, the harmonies ...

"Solar Power" is receiving mostly positive reviews, ... Music has been nominated for and won Grammys with far lower critical ratings. And Lorde is a past academy favorite. She won Song of the ...

On Solar Power, Lorde surrenders to normalcy--and finds transcendence. Ever since people started slinging around the word basic as an insult, delights as disparate as pumpkin-spice lattes, the music of Lizzo, and sunsets have gotten a bad rap. The diss refers to pleasure--simple pleasures, normal pleasures, things that everyone can enjoy.

The reviews are in. (Credit: Getty) UK publication The Independent decided tough love was the best approach when it came to reviewing this album, writing, "Solar Power finds Lorde swapping her trademark directness for tuneless detachment". Yikes. But, unfortunately, it wasn't an uncommon take, with fellow UK publication, The Skinny, deeming Solar Power, ...

Lorde's 2021 album Solar Power was one of the biggest swings a pop star has made in recent years. After building up a reputation for her dark and moody confessional bops, the then-25-year-old ...

Lorde is back with her first album since 2017's Melodrama and Solar Power has been hailed as "a tonic for dark days". The New Zealand-born singer, 24, made her long-awaited return in June ...

The mood on Lorde's subdued third album, "Solar Power," sounds a lot like caution, or just self-protection. ... The commercial and critical success of her first two studio albums, ...

Solar Power criticism breaks my heart now because I realise Ella sacrificed that fun concept, to make something much better. One of the greatest modern pop albums, and certainly some of her best work (I

consider all her albums to be equal, as they're all amazing, but represent different points in time, maturity, and life. ... I love Lorde and ...

Critics are a bunch of snobs anyways, and tend to separate their opinions from stuff like release timing in most cases, unless there's really a special circumstance. As for fans, I don't really think so. I love Solar Power, but it is a chill and airy album, where both PH and Melodrama were more dense and suffocating.

The Path, Solar Power, Mood Ring, Stoned at the Nail Salon, Secrets of a girl, and Fallen Fruit were all songs I enjoyed. I went back and listened to Melodrama and definitely see the difference and how low risk this album is in comparison, but I think if she comes out with another album not too far in the future and goes back to her usual sound ...

lorde gave me supercut and green light idc if solar power is bad i will never turn my back on her -- nandi (@inejvrse) August 19, 2021 solar power isn't a bad album, it's just disappointing i ...

Solar Power is the third studio album by New Zealand singer-songwriter Lorde. It was released on 20 August 2021, by Universal Music New Zealand. Lorde wrote and produced the album with American musician Jack Antonoff, with whom she also worked on her second studio album, Melodrama (2017).

"Solar Power" is receiving mostly positive reviews, scoring 70 on MetaCritic based on 16 reviews counted as of this writing: nine positive and seven somewhat mixed, but none ...

Lorde's wonderful third album, Solar Power, is too complex to be basic. But it does shrug off the baggage that has been placed upon Lorde, upon stardom, and upon happiness itself in the influencer age. Gone are the creepy keyboards and the image of a teen girl with hunched posture in black cloaks.

Ella Yelich O'Connor, more commonly known as Lorde, just released her third studio album, Solar Power, on August 20, 2021. Lorde has a uniquely sporadic songwriting/album releasing process; after releasing her first chart-topping album Pure Heroine at the tender age of 16 and completing an international arena tour, she retreated from public life for nearly 4 years ...
