

Solar power newcastle australia

Solar Power Australia is an Australian owned and operated company proudly providing high-quality, reliable renewable energy solutions for over two decades. We offer a range of residential and commercial services to the Newcastle, Lake Macquarie, Hunter Valley and Central Coast areas as well as remote and industrial solutions Australia-wide.

The number of solar panels you need depends on the size of the solar system you have for your home. We have solar packages for 3, 5 and 8kW solar systems that include the estimated number of panels needed to run your home. For example, a smaller 3kW system will use between 9-11 solar panels, while a bigger 8kW system might use between 22-28 ...
