Solar power rebate tasmania

The solar rebate is an amount of money you get refunded for having solar panels installed. As a reward for installing solar panels with renewable energy certificates, your solar installer can use the solar rebate to discount installation and system costs. Basically, it makes solar panels cheaper to buy and install.

Last updated 31st October 2024. Energy Saver Loan Scheme. Tasmania's Energy Saver Loan Scheme is here to help make battery storage and other energy-saving upgrades more affordable for households, small businesses, and even rental properties. While there's no direct rebate on batteries, this scheme provides a zero-interest loan of up to \$10,000, with flexible repayment ...

Some states and territories may allow you to apply for a solar or battery rebate on top of an interest-free loan. These can complement one another and further reduce the cost of your system. You will still be able to collect small-scale technology certificates (STCs) under the Small-scale Renewable Energy Scheme (SRES).

Soak up more power from your solar panels with a Solahart PowerStore. PowerStore is Australia's first solar-smart electric water heater. It works with your solar power panels to capture excess solar energy and turns it into hot water rather than sending it back to the grid. Our team will estimate the savings you can make with a PowerStore.
