

# Solar power source for outdoor lighting

All solar outdoor lights draw power from the sun during daylight hours and store that power in a battery, or batteries, housed inside the lights. When the sun sets, the lights use that stored power to produce light. Some models come on automatically at dusk, and some can or must be turned on manually.

Indoor solar lights are similar to outdoor solar lights, as they are based on the same principle of operation and are offered in various shapes and designs. Unlike the lighting source itself, however, the solar panel is located outdoors, usually on the top of the building.

**DIY Solar Power Lights.** There are usually four parts to most solar-powered outdoor lights - solar panel, battery, charge controller and load (such as a light bulb). A solar panel produces electricity from the sun and charges up a battery. The battery is used to power electrical things like light bulbs.

**How Do You Power Outdoor String Lights?** You can power outdoor string lights conventionally by plugging them directly into your home or via an extension cord. If that isn't an option, try more unconventional methods. Consider solar power, battery power, rechargeable lights, USB Christmas lights, or a light socket adapter.

For a minimalist look, these small solar-powered outdoor lights from Solpex are designed to run along a deck railing or at the edge of steps. Like many of our picks, they charge during the day and automatically turn on at night without a timer. When fully charged, the lights reportedly cast their dim glow for up to 10 hours.

For more power and the possibility of using existing LED light strands, consider a portable power system which includes solar panel, solar generator, and more. These reasonably priced power sources can also be helpful in emergencies and while camping.

Durable and versatile, the AloftSun Motion Sensor Solar Landscape Spotlights are our best outdoor solar light pick with three easy-to-use lighting modes and two installation methods, so you can have bright light when and where you need it.
