To make a solar print, use everyday objects and place them on colored paper. Leave the paper in the sun, and at the end of the day, check to see how the sun has created designs on the paper. Alternatively, you can create a chalk diagram to show students how the sun, moon, and Earth align, and draw the system in chalk.

Creating solar system posters for projects is an exciting and easy activity that kids will love! They can use colorful markers, crayons, and stickers to draw and decorate each planet. Starting with the Sun at the center, they can arrange the planets in the correct order, showcasing their sizes and unique features.
