

Join us on September 18th for an engaging webinar focused on the rapidly evolving energy storage markets of Spain and Germany. Susan Taylor from S&P Global will kick off the session with an in-depth presentation of our latest White Paper, which outlines key market updates and projections for these two leading European nations.

Discover the future of energy storage in the Netherlands at the third edition of the Solarplaza Summit Energy Storage on February 7, 2024, in Amsterdam. With a remarkable 20% year-on-year increase, 40% of the nation's electricity now stems from renewable sources, marking a significant shift. Dive into crucial topics such as managing price ...

Join the Solarplaza Summit Energy Storage The Netherlands on 16 February in Amsterdam, the leading storage event in the Netherlands. You will connect with local & European players from both the energy storage field and the PV and wind industries. This event will empower you to take charge of and integrate your ambitions in the Dutch market.

Join the Solarplaza Summit in Cologne for crucial insights on energy storage's role in Germany's energy transition, featuring industry leaders and innovators. ... Resources; Events; About; Newsletters; My Solarplaza Solarplaza Summit | Energy Storage Germany. 10 Dec 2024. Cologne. Menu English; Deutsch; Tickets Speakers Program Venue Attendees ...

Dee Yon Chng (pronounced Dion) is a project manager for Solarplaza spearheading the following events in chronological order: Agri-PV 2023, Floating-PV 2023, Energy Storage Spain 2023, Romania 2024, France 2024.

Dr.-Ing. Christian Folke (born 1 st July 1971), is an innovation manager at Uniper Energy Storage GmbH. He has a PhD in energy supply technologies and energy economics from the University of Essen, Germany, and has extensive ...

Join our event Solarplaza Summit Energy Storage Germany! Get ahead of the curve and reconnect with the industry's top leaders. Don't miss this opportunity to gain valuable knowledge and stay ahead of the game. ... Christian Barba is the Director of Energy Storage Unit for Europe and LatAm in EDP Renewables and International Business Development ...

Strictly speaking, solar power storage is not just a battery but a rechargeable solar battery. In case of strong solar radiation the generated solar energy exceeds the energy demand of the house. The excess energy is passed into the solar battery and charges it, like a battery.

Cedric is an industry pioneer and authority on renewable asset management and serves as Stem's Vice President, Product. In this role, Cedric manages Stem's industry-leading software and services for technical

and commercial operation of energy storage and solar assets, including Asset Performance Management (APM), and Optimization & Simulation offerings.

Mikel Pino is a chemical engineer, master in renewable energies and PhD into battery energy storage with more than 12 years fully devoted to energy storage and new energy businesses. He has participated in the whole value chain of BESS from new battery technologies R& D, up to business modelling, procurement and contracting.

Der Solarplaza Summit Energy Storage Germany 2023, der am 23. November in Köln stattfindet, konzentriert sich auf die zentrale Rolle Deutschlands bei der globalen Energiewende und zielt darauf ab, die Herausforderungen und Chancen der Integration von Energiespeicherlösungen in die sich entwickelnde deutsche Energielandschaft zu erkunden.

Solarplaza Summit Energy Storage Spain to explore the next steps for the Spanish storage market. ROTTERDAM - 29 April 2024 - As a part of its roadmap towards realizing a 100% renewable electricity system by 2050, Spain has set an ambitious goal of achieving 20 GW of large-scale energy storage capacity within that time frame.

Over the last 7 years Christoffer has focused on Solar and Energy storage as CEO of Soltech Energy Solutions. Under his leadership the company has transformed from a 2meur technical consulting firm to a 60meur B2B Utility size Developer, EPC and O& M provider with approximately 100 employees working in Solar and Energy Storage.

Econergy is a renewable energy IPP that operates across 6 different regions with over 400 MW of solar, and 102 MWhs of battery storage projects in commercial operation and ...

He focuses on clean energy technologies in Europe, Middle East and Africa and has a particular interest in how energy storage integrates with other industries. He has recently published work on recycling, energy storage for EV charging, vehicle-to-grid technologies, second life batteries and the use of batteries in hydrogen production.

Join our event Solarplaza Summit Energy Storage The Netherlands! Get ahead of the curve and reconnect with the industry's top leaders. ... Rianne 't Hoen works as senior consultant in the Energy Storage team of DNV, she supports customers in making technical decisions about battery energy storage system projects: market focus (geographically ...

The newly launched Solarplaza Summit Energy Storage North America is the place to be! This high-level, strategic B2B event will bring together solar PV and energy storage professionals ...

Join Solarplaza Summit Energy Storage The Netherlands on 16 February in Amsterdam, the leading storage event in the Netherlands. You will connect with local & European players from ...

Join the Solarplaza Summit Energy Storage North America in Houston on October 30, 2024. Discover key trends in utility-scale BESS projects and energy trading. ... In this role, Cedric manages Stem's industry-leading software and services for technical and commercial operation of energy storage and solar assets, including Asset Performance ...

Innovate, Integrate, Inspire: Germany's Energy Storage Pathway. Battery Storage | Flexibility Services | Grid Resilience. Explore how large-scale battery storage systems are revolutionizing Germany's energy landscape at the Solarplaza ...

Over the last 7 years Christoffer has focused on Solar and Energy storage as CEO of Soltech Energy Solutions. Under his leadership the company has transformed from a 2meur technical consulting firm to a 60meur B2B Utility ...

On 6 and 7 April 2022, Solarplaza will host the 8th consecutive edition of the Solarplaza Summit Asset Management North America in Oakland, and will once again set the stage for solar ...

Still, too little attention has been paid to large-scale energy storage. Focusing on Germany's pivotal role in the global energy transition, the Solarplaza Summit Energy Storage Germany 2023, on November 23 in Cologne, aims to explore the challenges and opportunities of integrating energy storage solutions into Germany's evolving energy ...

“Therefore it's becoming more challenging in countries with high levels of curtailment to make a business case for solar without a battery,” he says. To increase the BESS market, the biggest challenge for banks and investors is to calculate the risks and revenues of batteries.

Join Solarplaza Summit Energy Storage The Netherlands on 16 February in Amsterdam, the leading storage event in the Netherlands. You will connect with local & European players from both the energy ...

Join the Solarplaza Summit in Cologne for crucial insights on energy storage's role in Germany's energy transition, featuring industry leaders and innovators. ... You must be curious who will be attending Solarplaza Summit Energy Storage Germany with you? Take a moment to browse through the companies who you will get to (re)connect, network and ...

Connect with key energy storage and Solar PV figures from Europe. We're focusing on key topics like successful storage project cases, AI in Digitalized Storage for efficiency, and Hybrid Systems for grid stability. Learn about the ...
