Common Questions About Your SCE Bill 1. How Do I Read My SCE Bill If I Have a Home Solar System? SCE will use a smart meter to track the difference between the number of kilowatt-hours produced by your solar panels, as well as the amount of electricity you consume from the electric grid each month. 2 This difference is known as Net Energy Metering or NEM, and SCE uses it ...

Breaking Down Net Energy Metering (NEM): When excess electricity is produced by your solar system, it is sent back to the grid and the electric company must buy that energy from you. Customers that sell their extra energy to the electric company then use that amount to offset their total electric bill. They can also draw upon these energy credits during times when ...
