As Tesla almost exclusively uses remanufactured packs, the true price should be slightly lower. This scenario places our lowest Model X battery replacement estimate at \$10,000-\$12,000 for the battery, \$100-200 for miscellaneous parts, and a potential \$500-\$600 for labor.

Tesla has also added a warranty clause that covers battery replacement due to degradation. Most of Tesla's vehicles are covered by warranty if the battery loses more than 30% of its original capacity during the warranty period.
