Furrion Vision S 4.3 Inch Wireless RV Backup System. The Furrion Vision S offers a high resolution (720p x 480p) camera with infrared night vision as well as wide viewing angle (120°) and the ability to live-stream. This particular kit comes with a 4.3" anti-glare monitor with touchscreen, but the system is also available with 5" or 7" monitors.

There are adapters on the market that can go from a cigarette lighter style plug that the # C-FOS07TAPK-006 has to USB/USB-C ports but we don't currently offer any so the only solution I can provide is the # RM-9332. This is a replacement outlet typically used to power portable braking systems when flat towing but can be used for this purpose as well.

Getting Power to a Wireless RV Backup Camera. Wireless RV backup cameras are becoming a standard accessory in the world of campers. Most new travel trailers, 5th-wheels, motorhomes, and vans are pre-wired for RV backup camera kits in the factory. A pre-wire means the electrical plug and mounting plate are already set up and ready to go.
