SOLARWATT's energy management system allows you to use solar energy in the way that makes the most sense for you. Either automatic, or to your specifications. It shouldn't matter whether the sun is shining or not. Store excess solar power instead of feeding it into the grid, only to buy it back later at higher cost.

Darüber hinaus werden Solarwatt-Speichersysteme ausschließlich von speziell geschulten Installateuren installiert. Damit wird sichergestellt, dass auch bei der Installation alle Sicherheitsmaßnahmen durchgeführt und der ...

The SOLARWATT Manager acts as the brain and nervous system. It keeps track of all components and

energy consumers, optimizing the system to achieve different outcomes, e.g., maximum self-sufficiency. We make it easy for you to start generating solar energy. With premium-quality products designed and developed in Germany, a 30-year product and ...

The term TOPCon stands for Tunnel Oxide Passivated Contact and describes the specific structure of a solar cell. The novel cell architecture was presented by researchers at the Fraunhofer Institute for Solar Energy Systems in Freiburg in 2013, but it still took a few years until the first TOPCon modules came onto the market. The basic idea of the TOPCon concept is ...
