Wyze camera solar panel

For this reason, researching solar panels for a security camera that did not have its own power source, as is the case with the Wyze Cam V3, proved to be a challenge but not insurmountable. ... Wyze does, in fact, make its own solar panel for its Outdoor model, but this solar panel is incompatible with the V1 through V3 models.

Attach a solar panel to your Wyze Battery Cam Pro to extend the battery life. Designed to be weather resistant and mountable anywhere. Works with Wyze Cam Outdoor v1/v2 and Wyze Battery Cam Pro. Wyze Cam Outdoor and Wyze Battery Pro recharge frequency vary based on device settings, motion notifications, and sun exposure in the area of placement.

I just purchased, from Amazon, the Power-Bank-Solar-Charger - 36000mAh Solar Power Bank (with solar recharging feature) for \$19.99 USD. This morning I set it up and it is now powering a Wyze Cam OG. I'm hoping that it will be a good setup. For the camera, I have the following basic settings; Motion and sound detection sensitivity set to 50

I found a bigger 10 watt solar panel on Amazon for under \$20 that is meant for battery cameras. The Wyze solar panel is only 2.5 watts. The larger 10-watt panel has gone from 27% to 57% in just 4 hours this afternoon and that's without direct sun shining on it. It's a bright clear day, but the new location for the new panel still isn't in ...

For Wyze Cam Outdoor, use the standard adapter that is included with the solar panel. For Wyze Battery Cam Pro, you will need Wyze Solar Panel USB-C Adapter Cable (sold separately). Remove the silicone cover from the charging port on your camera and insert the power adapter until secure.

I just received the battery cam pro and set it up, however it will not charge using the Wyze solar panel. The battery will charge separately, and when in the camera and plugged into ac. I have tried 3 separate solar panels and cables (which work fine with Outdoor v2's).

The charging time of Wyze cameras using the solar panel depends on the amount of sunlight available and the battery level of the camera. On average, it takes 4-7 hours for the solar panel to fully charge a Wyze camera with an empty battery.
